

## Accessing Teams

We are delighted to see how many of you are accessing the Teams Home Learning Platform. We hope that it will help your child benefit from interactive resources to extend their learning. It will be an incredibly useful resource for submitting paperless homework, and in the event of a bubble closure, an excellent communication tool. There is a huge amount of lesson content on there and teachers are providing feedback and guidance on their class channel.

If you have any problems with login information, please contact school.

If you have not accessed the Learning Platform yet, please use this [handy guide](#) to look at your child's account or you can watch this [short video](#) which shows you how to do it.

Thank you for all those who have completed the new [Acceptable Use Policy](#) and for your ongoing support.
